

BUILT FOR BASIC SCHOOL WORKFLOWS

TRWSOFT FOR BASIC SCHOOLS

Creche to JHS, one connected school record

A level-aware workspace for admissions, classes, attendance, assessment, parents, and school administration.

DESIGNED FOR PRACTICAL SCHOOL IMPLEMENTATION

For proprietors, heads, administrators, class teachers, and parents

Product brochure | October 2026 | Demonstration interfaces use illustrative data

Practical outcomes before extra complexity.

Faster admissions

Invite parents, capture complete learner records, review documents, and assign classes.

Clear class work

Organize class teachers, subjects, score entry, attendance, and official class lists.

Parent connection

Share approved messages, results, attendance updates, and school information.

Level-aware menus

Show Basic school terminology and workflows without unrelated SHS operations.

CONNECTED PLATFORM AREAS

The modules share one permission and evidence framework.

● Online and office admissions

● Manual student entry

● Class and subject setup

● Daily attendance

● Score entry and report cards

● Student profile and documents

● Parent portal and messaging

● Fees and payment status

● Class seating planner

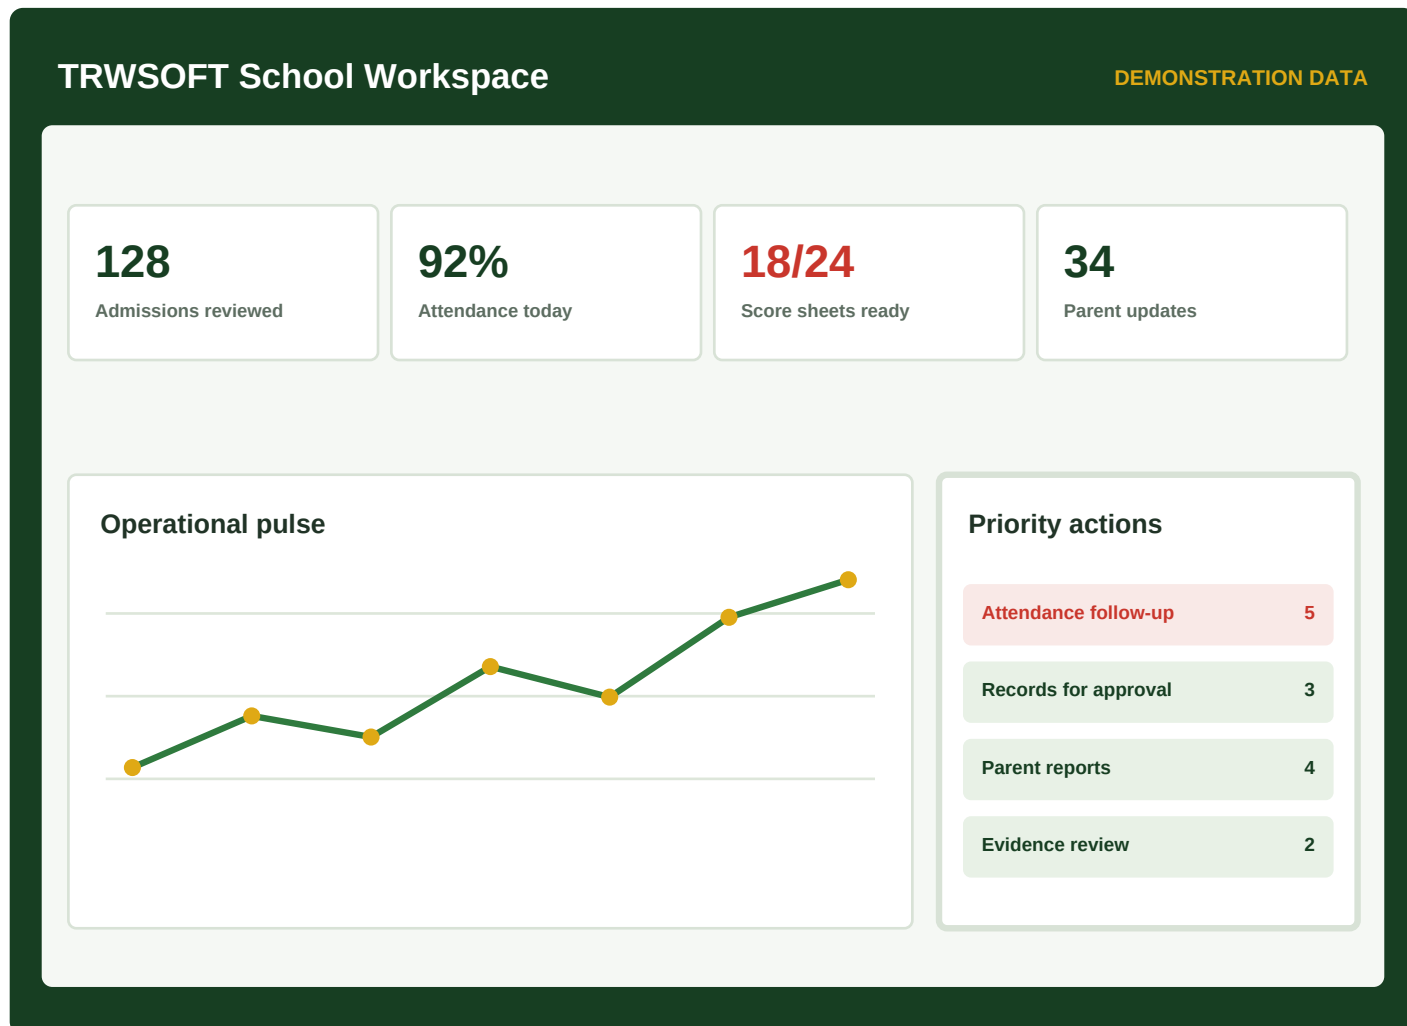

● Behaviour and safeguarding

● School reports and printouts

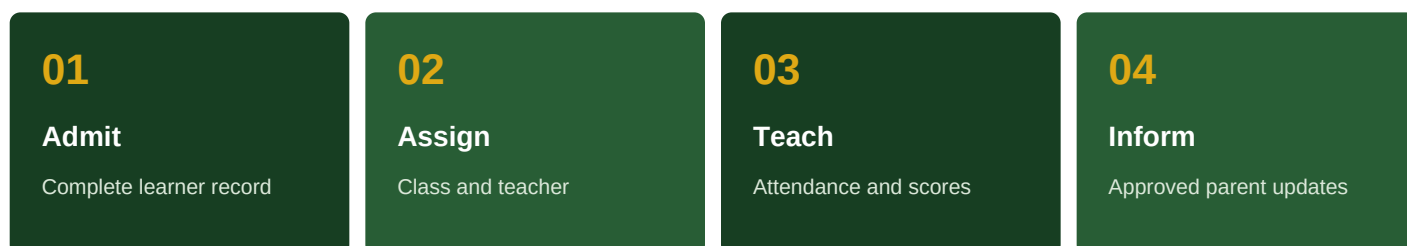

● Leadership dashboard

See the school day clearly, then open the evidence.

The figures below are demonstration data. A live school workspace uses authorized school records and role permissions.

HOW INFORMATION BECOMES ACTION

IMPORTANT

TRWSOFT supports responsible school decisions. Authorized staff remain accountable for verifying records, applying school policy, and approving each action.

A practical path from discovery to daily use.

The final scope is agreed with each school before activation.

1

School setup

Confirm levels, classes, subjects, terms, and responsible staff.

2

Learner records

Import or enter students, guardians, photos, and documents.

3

Teacher launch

Activate assigned classes, attendance, scores, and parent contact.

4

Leadership review

Use official reports and intelligence to improve follow-up.

BUILT AROUND ACCOUNTABILITY

Role permissions

Viewing and actions follow assigned responsibility.

School isolation

Each institution operates within its authorized scope.

Evidence trails

Critical actions can preserve person, time, reason, and source.
