

EVIDENCE BEFORE DECISION

TRWSOFT LEADERSHIP INTELLIGENCE

Move from school data to responsible action

A clear daily view of school performance, risk, responsibility, evidence, and follow-up.

DESIGNED FOR PRACTICAL SCHOOL IMPLEMENTATION

For proprietors, headmasters, assistant heads, and authorized leadership teams

Product brochure | October 2026 | Demonstration interfaces use illustrative data

Practical outcomes before extra complexity.

Daily operational brief

See the school areas that need attention without searching through disconnected pages.

Explainable alerts

Open the source record, reason, evidence, owner, status, and recommended next step.

Accountable ownership

Assign responsibility, due dates, notes, and closure evidence to authorized users.

Official reporting

Print or export school-ready summaries with scope, filters, and evidence context.

CONNECTED PLATFORM AREAS

The modules share one permission and evidence framework.

Executive summary

Leadership command center

Attendance intervention

Student risk and support

Teacher workload ranking

Campus presence intelligence

Results and WASSCE analysis

Boarding and exeat trends

Finance and operational reports

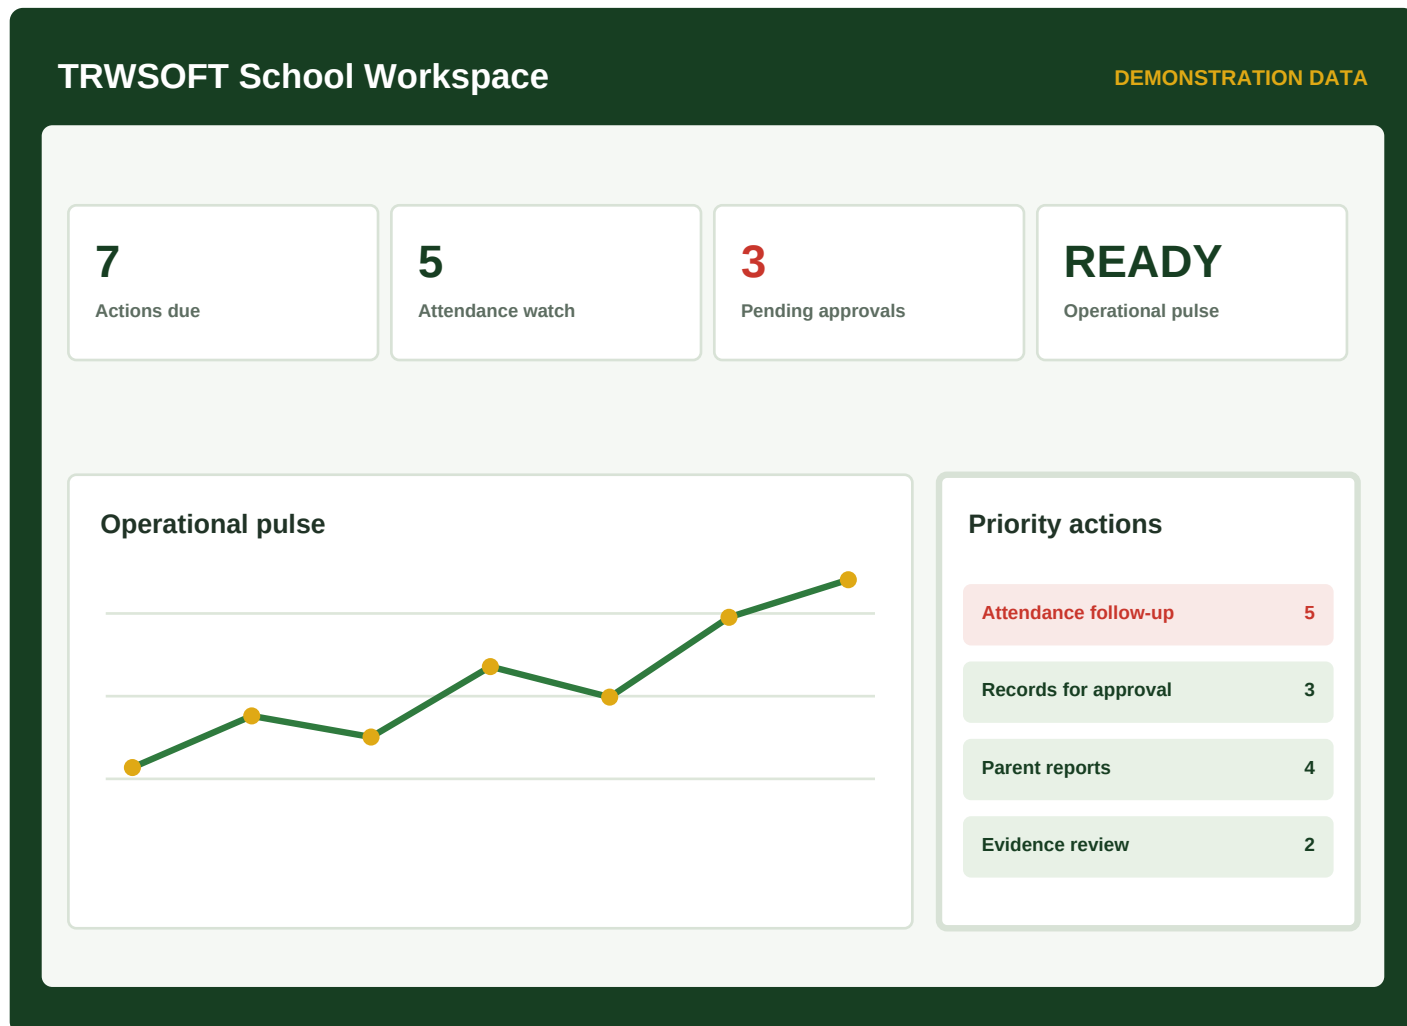

Workflow automation

Smart announcements

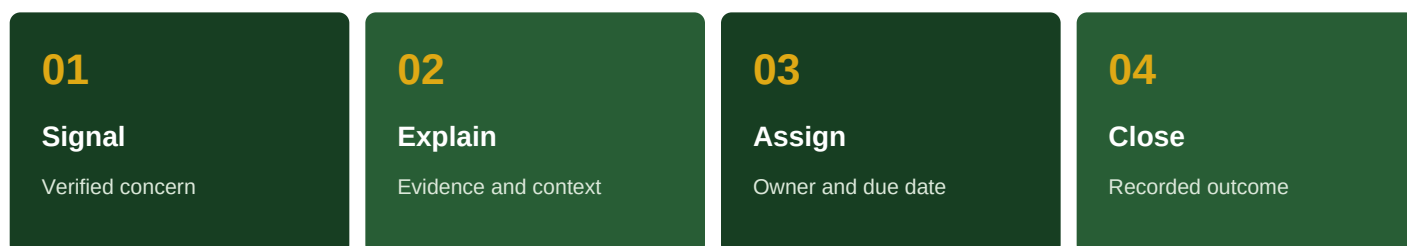

Audit and verification history

See the school day clearly, then open the evidence.

The figures below are demonstration data. A live school workspace uses authorized school records and role permissions.

HOW INFORMATION BECOMES ACTION

IMPORTANT

TRWSOFT supports responsible school decisions. Authorized staff remain accountable for verifying records, applying school policy, and approving each action.

A practical path from discovery to daily use.

The final scope is agreed with each school before activation.

1

Define scope

Agree the decisions, reports, and roles leadership needs first.

2

Verify sources

Connect each indicator to current and accountable school records.

3

Assign action

Set owners, escalation paths, deadlines, and protected access.

4

Review outcomes

Measure closure, adoption, data quality, and operational improvement.

BUILT AROUND ACCOUNTABILITY

Role permissions

Viewing and actions follow assigned responsibility.

School isolation

Each institution operates within its authorized scope.

Evidence trails

Critical actions can preserve person, time, reason, and source.
