

CONTROLLED ACADEMIC RECORDS

TRWSOFT SCORE ENTRY AND RESULTS

Enter scores with control. Publish results with confidence.

A protected academic workflow for assigned score entry, validation, publishing, report cards, and evidence-led learner support.

DESIGNED FOR PRACTICAL SCHOOL IMPLEMENTATION

For academic leadership, examination teams, heads of department, and teachers

Product brochure | October 2026 | Demonstration interfaces use illustrative data

Practical outcomes before extra complexity.

Assigned score entry

Teachers work only with the classes and subjects connected to their approved teaching assignment.

Checks before publishing

Highlight missing scores, unusual values, incomplete sheets, and records that still need review.

Explainable results

Turn approved grades into report cards, subject patterns, learner trends, and support priorities.

Protected corrections

Record the correction reason, responsible user, approval, time, and resulting academic evidence.

CONNECTED PLATFORM AREAS

The modules share one permission and evidence framework.

● Assessment and grade setup

● Class and subject score sheets

● Continuous assessment

● Examination score entry

● Missing-score checks

● Grade boundaries

● Completion and readiness

● Controlled result publishing

● Official report cards

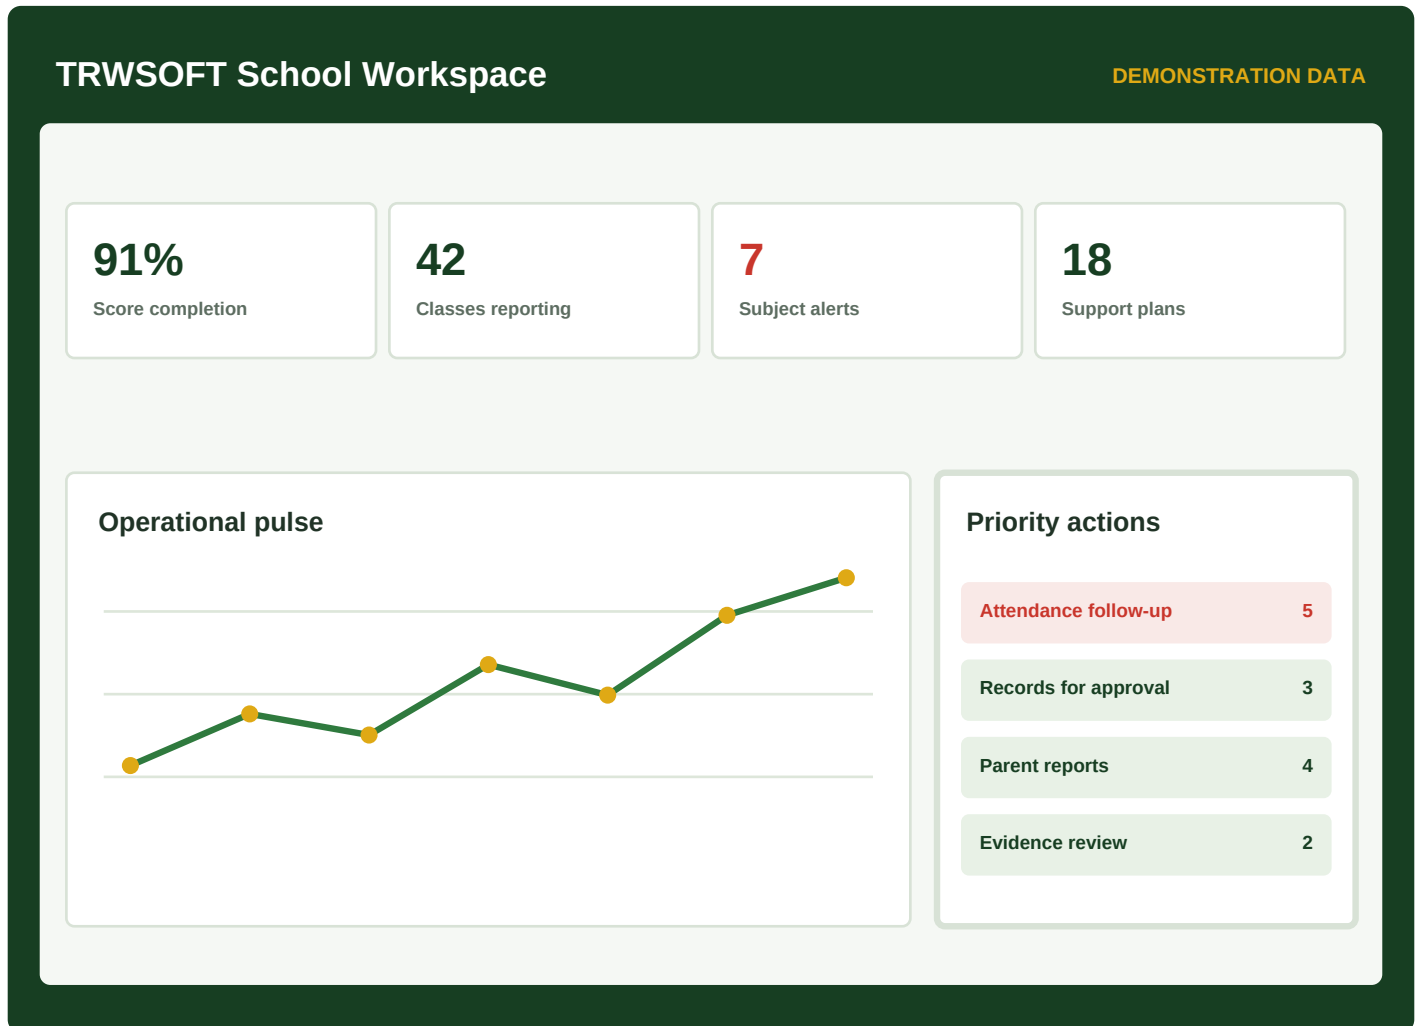

● Results intelligence

● Learner support planning

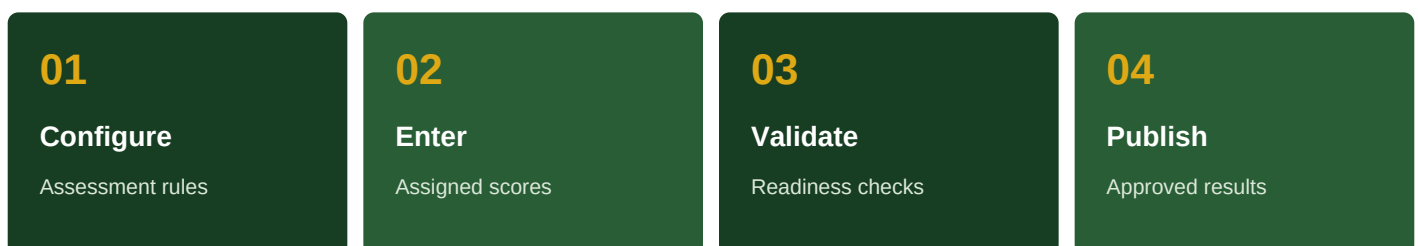

● Correction audit history

See the school day clearly, then open the evidence.

The figures below are demonstration data. A live school workspace uses authorized school records and role permissions.

HOW INFORMATION BECOMES ACTION

IMPORTANT

TRWSOFT supports responsible school decisions. Authorized staff remain accountable for verifying records, applying school policy, and approving each action.

A practical path from discovery to daily use.

The final scope is agreed with each school before activation.

1

Academic rules

Confirm terms, assessments, score weights, grade boundaries, and publishing authority.

2

Teaching scope

Connect teachers to the correct classes and subjects before score entry opens.

3

Readiness review

Resolve missing, incomplete, or unusual records before leadership approval.

4

Results action

Publish official reports and use evidence to guide learner support.

BUILT AROUND ACCOUNTABILITY

Role permissions

Viewing and actions follow assigned responsibility.

School isolation

Each institution operates within its authorized scope.

Evidence trails

Critical actions can preserve person, time, reason, and source.
