

ATTENDANCE THAT LEADS TO SUPPORT

TRWSOFT STUDENT ATTENDANCE

Know who is present. Follow up before absence becomes risk.

Connected daily and lesson attendance with assigned-teacher access, parent updates, early intervention, and official evidence.

DESIGNED FOR PRACTICAL SCHOOL IMPLEMENTATION

For school leadership, administrators, class teachers, subject teachers, and parents

Product brochure | October 2026 | Demonstration interfaces use illustrative data

Practical outcomes before extra complexity.

Faster registers

Mark daily or lesson attendance from the correct class list, including optional photo-supported workflows.

Responsible teacher access

Class and subject teachers work only within their assigned students, times, and school days.

Parent connection

Send approved absence or lateness information through the school's configured communication channels.

Earlier intervention

Use repeat absence, lateness, and lesson patterns to open timely learner support follow-up.

CONNECTED PLATFORM AREAS

The modules share one permission and evidence framework.

● Daily attendance register

● Lesson attendance

● Photo-supported register

● Class-teacher rules

● School day and time controls

● Present, absent, late, and excused

● Parent notifications

● Attendance summaries

● Risk movement over time

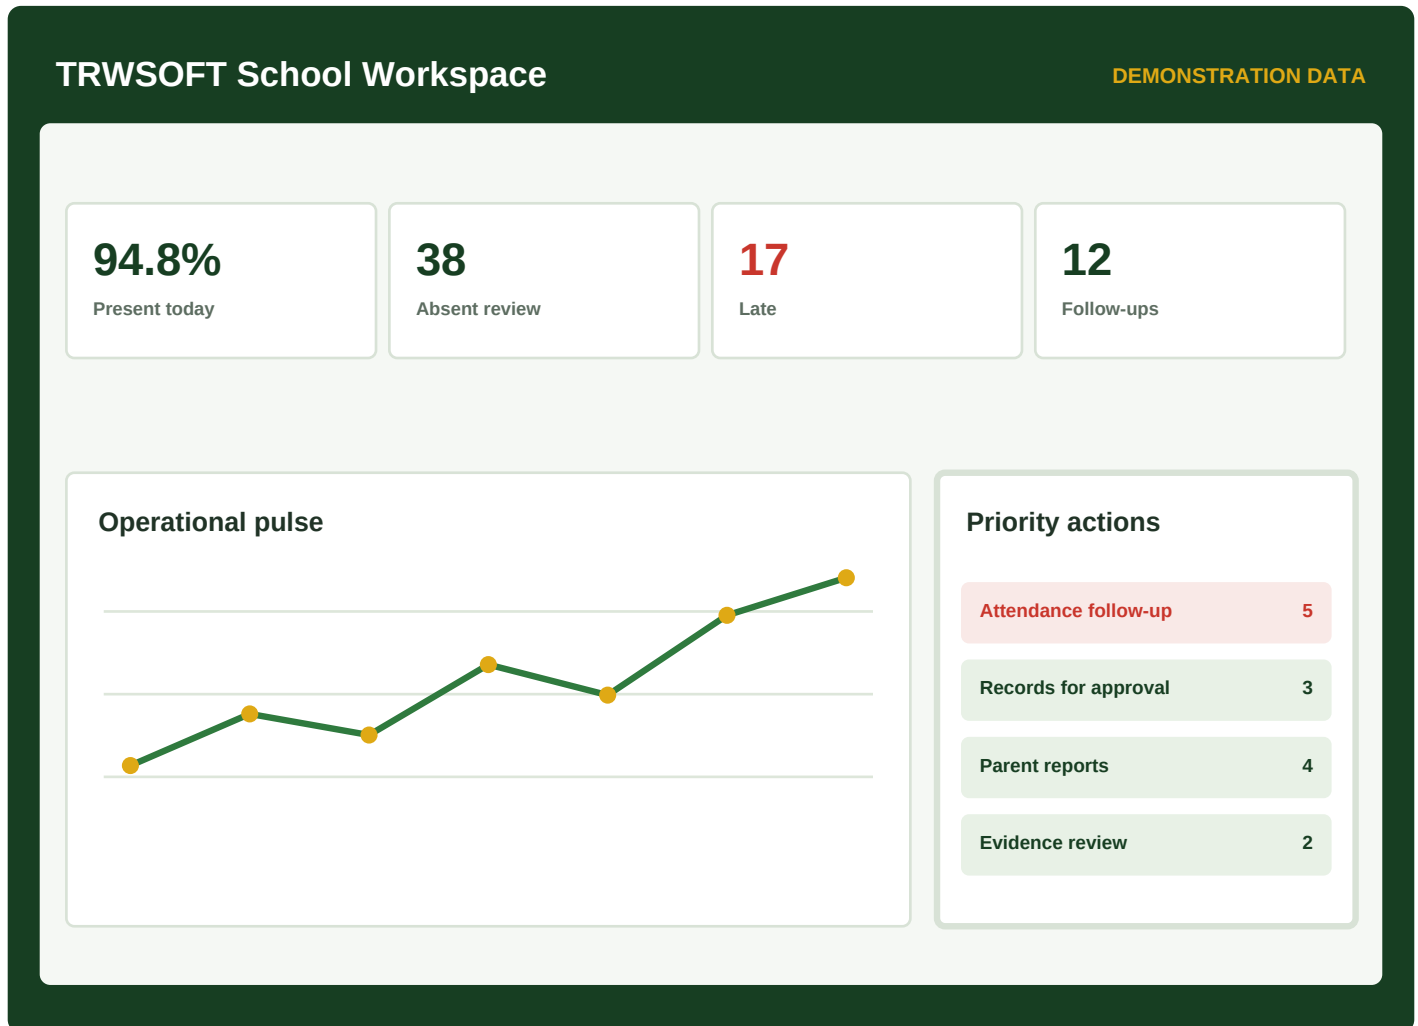

● Intervention tracker

● Official attendance reports

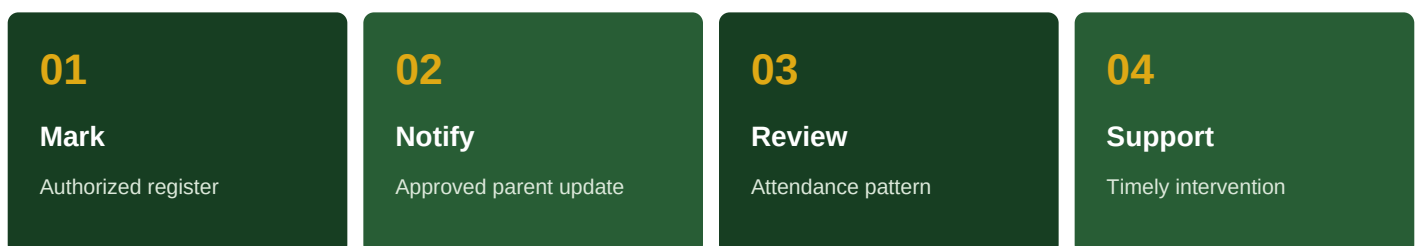

● Evidence and correction history

See the school day clearly, then open the evidence.

The figures below are demonstration data. A live school workspace uses authorized school records and role permissions.

HOW INFORMATION BECOMES ACTION

IMPORTANT

TRWSOFT supports responsible school decisions. Authorized staff remain accountable for verifying records, applying school policy, and approving each action.

A practical path from discovery to daily use.

The final scope is agreed with each school before activation.

1

Register rules

Confirm classes, school days, attendance windows, statuses, and responsible teachers.

2

Parent channels

Verify guardian contact records and approved attendance-notification settings.

3

Daily practice

Activate class and lesson registers with clear review and correction paths.

4

Learner support

Use attendance trends to assign, document, and close responsible follow-up.

BUILT AROUND ACCOUNTABILITY

Role permissions

Viewing and actions follow assigned responsibility.

School isolation

Each institution operates within its authorized scope.

Evidence trails

Critical actions can preserve person, time, reason, and source.
